EXPORTS RUNNING HIGHER

The foreign trade balance of \$35,000,000 in favor of this country last week at thirteen customs districts looms stupendous today, but by contrast may very soon seem small. Without exports of cotton, with virtually no grain exports, and with exports of arms and ammunition only beginning to show their strength, we scored, all through the late spring and summer months, trade balances ranging from more than \$100,000,000 a month to \$130,-000,000 a month.

Secretary of the Interior Lane Declares He Expects Future Meat Industry of Great Northwestern Territory Will Be of Real Importance-What Is Being Done.

By JUDSON C. WELLIVER.

Cheer up! The meat famine isn't going to get us just yet. Alaska has begun to export meat to the United States.

Secretary of the Interior Lane is authority for the statement. Nothing that concerns the development of the great northwestern territory escapes the Secretary, who is a sort of guardian of Alaska interests in general.

"The first reindeer were introduced into Alaska about sixteen years ago," said Mr. Lane. "There were 1,200 of them at the beginning; now there are 60,000, and in time there will doubtless be 600,000. Last year a small amount of their meat, which is very much like beef, was brought down to the States; but the recent shipment was the first to be sold on the general market. The boat that brought it carried a suggestive Alaska cargo; some gold, some tin, and some Becretary McAdoo and other advisers of this reindeer meat, which was marketed at Seattle."

that the action was taken for the double reason that it seemed unfair for some teachers to be drawing three salaries, and that it was not believed a teacher could do her best work in any one position when he or she occupied three positions.

An echo of the case of Mrs. Carl Hellman, who made a fight to retain her position after her marriage, and carried her case to the cougts, was heard yesterday when a communicatioff from Mrs. Helen Carroll Harris was received in which she stated she had recently been married, and therefore wished to relinquish her position as kinderwarten assistant in the Lange'sm (colored) school, but wished to have it back if it were later decided to rescind rule 45, which automatically retires teachers when they marry.
